Changes to the Climate Change Levy (CCL) From 1st April 2021, the Government changed the Climate Change Levy (CCL) rate to 0.775p/kWh for electricity and 0.465p/kWh for gas. This means that for any energy used where the CCL applies, it will be charged for at the new rate. You should review your entitlement to claim CCL reliefs to ensure that any reduction claimed continues to be correct and notify E.ON if any changes are required. For further information please see www.hmrc.gov.uk

If you're moving

You'll continue to be responsible for all charges for your premises until someone else takes responsibility for them - as explained in your terms and conditions.

Are you a micro business?

Does your business have an annual consumption of no more than 100,000kWh of electricity, or 293,000kWh of gas; or have fewer than 10 employees (or their full time equivalent) and an annual turnover or balance sheet not exceeding 2million Euros?

If you answer 'yes' to any of the above criteria, please email **micro-business@eonenergy.com** as we'll need to make sure the service we're delivering is right for you and your business.

Our commitment to you

If you're a micro business and we fail to deliver the standard of service you expect, call our Resolution Managers on 0800 158 2800 so we can put it right.

If we are not able to, we'll give you an explanation and apologise. You can also call 02476 193998 and ask for your complaint to be reviewed by our Resolution Review Committee. We'll carry out a full review and get in touch with you within ten working days.

If you are not a micro business please call your Customer Service Account Manager on 0800 158 2800.

For free independent advice

Contact Citizens Advice on 0808 223 1133 or visit citizensadvice.org.uk/energy at any stage of the complaints process. You can also contact the Ombudsman Services: Energy on 0330 440 1624 if there is no resolution after 8 weeks - their decision is binding for us. How do you calculate kilowatt-hours of gas?

We measure the gas you use in m³, but like all gas suppliers we have to charge for your gas in kilowatt-hours.

So we use the calculation below to convert m³ into kilowatt-hours:

- 1 We multiply the m³ used by the conversion factor 1.022640
- 2 We then multiply this by the calorific value 40.20323
- 3 We then convert this into kilowatt-hours by dividing by 3.6
