Changes to the Climate Change Levy (CCL) From 1st April 2021, the Government changed the Climate Change Levy (CCL) rate to 0.775p/kWh for electricity and 0.465p/kWh for gas. This means that for any energy used where the CCL applies, it will be charged for at the new rate. You should review your entitlement to claim CCL reliefs to ensure that any reduction claimed continues to be correct and notify E.ON if any changes are required. Gas invoice (continued)

How do you calculate kilowatt-hours of gas?

We measure the gas you use in hcf, but like all gas suppliers we have to charge for your gas in kilowatt-hours.

So we use the calculation below to convert hcf into kilowatt-hours:

- 1 We convert the hcf of gas used into cubic meters by multiplying by 2.83
- 2 We then multiply this by the conversion factor (see new charges above)
- 3 We then multiply this by the calorific value (see new charges above)
- 4 We then convert this into kilowatt-hours by dividing by 3.6
